## Education

<b>United Institute Of Technology</b> <i>Bachelor of Technology in Computer Science Engineering (CGPA: 7.8 / 10.0)</i> <ul style="list-style-type: none"><li><b>Relevant Coursework:</b> Data Structures and Algorithms (C++), Object-Oriented Programming (OOP) with C++, Software Engineering, Machine Learning, Web Development (HTML, CSS, JavaScript), Database Management Systems (SQL)</li></ul>	Expected May 2026 Sultanpur, UP
<b>Intermediate (12th Grade)</b> <i>Science (PCM), 79.60%</i>	May 2021 Sultanpur, UP
<b>High School (10th Grade)</b> <i>76.17%</i>	May 2019 Sultanpur, UP

## Experience

<b>GeeksforGeeks</b> <i>Campus Ambassador</i> <ul style="list-style-type: none"><li>Represented GeeksforGeeks at college events and workshops to promote programming and technical content.</li><li>Organized and participated in coding competitions, webinars, and study groups, helping students improve their coding skills.</li><li>Collaborated with the GeeksforGeeks team to increase brand awareness and engagement through online and offline channels.</li></ul>	June 2024 – Present Remote
<b>Growth Ninja</b> <i>App Developer</i> <ul style="list-style-type: none"><li>Developed and maintained web applications using JavaScript, React, and other technologies to support business goals.</li><li>Collaborated with cross-functional teams to design and implement user-friendly features and ensure smooth application performance.</li><li>Contributed to the integration of third-party APIs and backend systems to enhance application functionality.</li></ul>	July 2024 – August 2024 Remote

## Projects

<b>BMI Calculator App</b>   <i>Android Studio, Java</i> <ul style="list-style-type: none"><li>Designed and developed a BMI Calculator app that calculates the Body Mass Index based on user input for weight and height.</li><li>Implemented a clean user interface using Java and XML, ensuring a smooth and responsive user experience.</li></ul>
<b>Tic Tac Toe Game App</b>   <i>Android Studio, Java</i> <ul style="list-style-type: none"><li>Created a Tic Tac Toe game app using Java, allowing users to play the game against another player or the computer.</li><li>Developed AI algorithms for single-player mode, making the game challenging and dynamic.</li></ul>
<b>To-Do List App</b>   <i>React, Tailwind CSS, Vite</i> <ul style="list-style-type: none"><li>Built a to-do list application with features such as adding, editing, and deleting tasks, and marking them as complete.</li><li>Utilized React for state management and Tailwind CSS for a responsive and modern design.</li><li>Integrated local storage to save user data and task lists across sessions.</li></ul>
<b>Blog Website</b>   <i>React, Node.js, Express, MongoDB</i> <ul style="list-style-type: none"><li>Developed a full-stack blog website where users can create, edit, delete, and comment on posts.</li><li>Implemented a RESTful API using Node.js and Express for handling blog data, with MongoDB as the database for storing posts and user information.</li><li>Created an intuitive user interface using React, allowing users to interact with the blog seamlessly.</li></ul>

## Technical Skills

**Languages:** Java, C++, Python, JavaScript, HTML, CSS, SQL  
**Technologies:** React.js, Tailwind CSS, Vite, Node.js, Express.js, Postman, Firebase, Android SDK, Git  
**Databases:** MySQL, MongoDB, Firebase  
**Concepts:** Object-Oriented Programming (OOP), RESTful API, Microservices Architecture, Responsive Design

## Certifications & Achievements

- 50 Days Coding Challenge Badge** – Earned on LeetCode for consistent problem-solving.
- Campus Ambassador, GeeksforGeeks** – Promoted technical learning and community engagement.
- U HACK 3.0 Ideathon** – Represented team "High Flyer" in an innovation-driven competition.
- Application Developer Intern, Growth Ninja** – Gained hands-on experience in app development.
